*How can it help you?*

# The Attendee

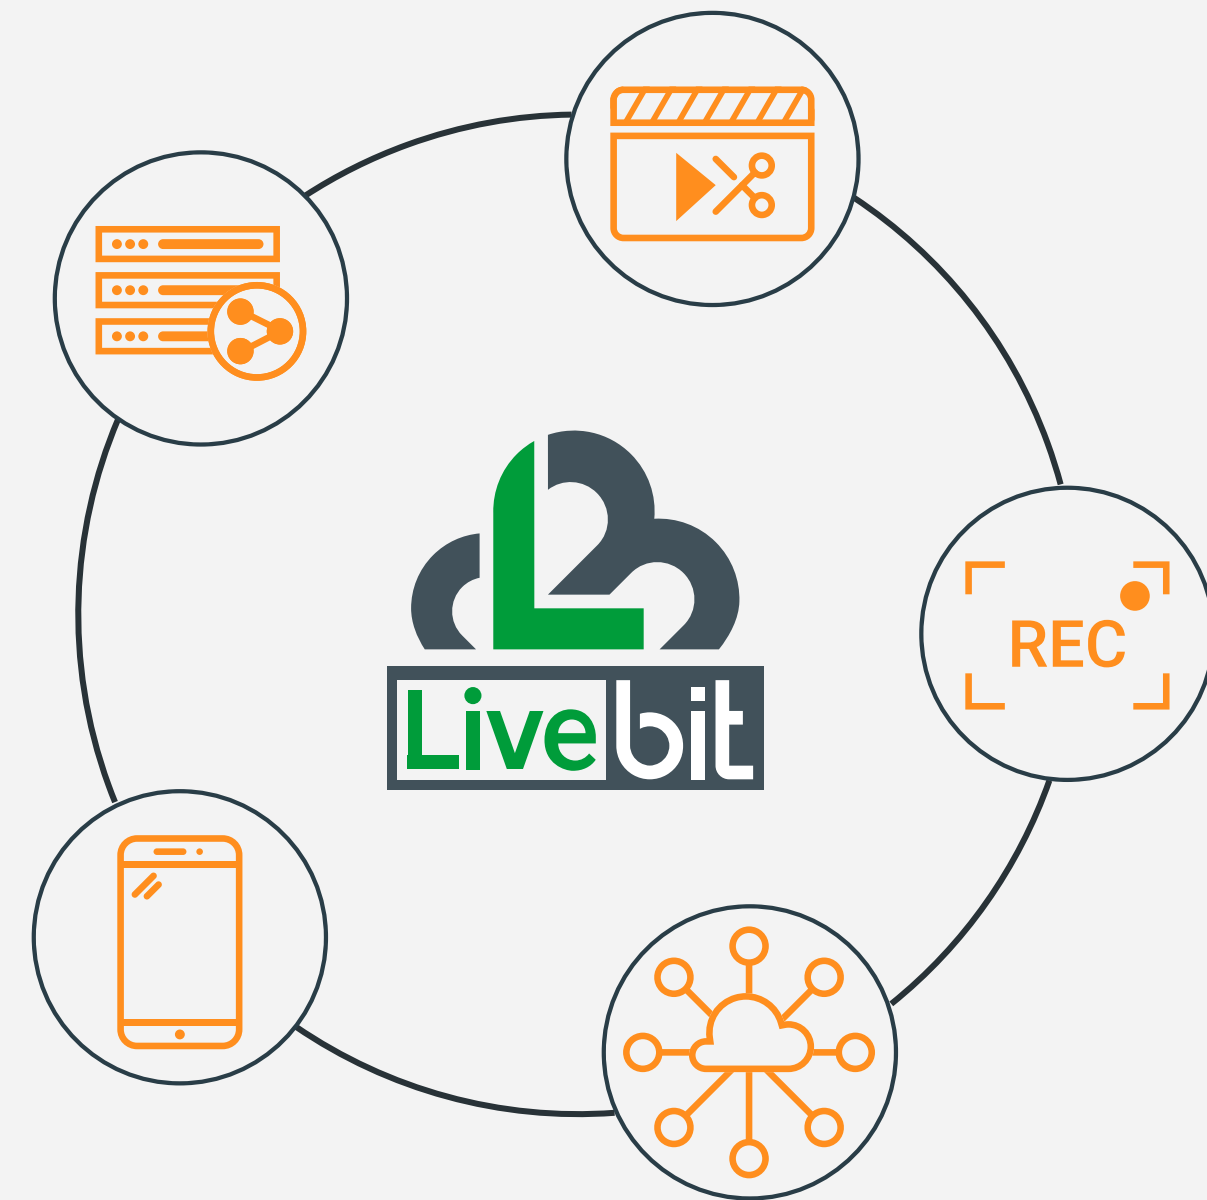

- On demand video repository with each presentation sorted by speaker immediately available
- Cross-platform live stream of the event: on the event's website and App or on social media
- Content rich: videos are created integrating the video feed of the camera and all the slides presented by the speaker

*How can it help you?*

# The Organiser

- A custom cloud area through which follow the live stream, have a general overview of the ongoing events or create custom video playlist for events and clients
- A real time video editing system allows to remotely edit all multimedia, thus dramatically slashing any cost related to manpower and travel
- Videos can be recorded autonomously via mobile devices, without the need of any professional video equipment nor technical support.

*How can it help you?*

# The Sponsor

- Graphically customized multimedia proceedings which can be accessed from a branded online showcase
- Video station set up in selected exhibition booths that can broadcast the live stream of the event and that can be customized in their graphics
- Creation of paid access codes in order to access exclusive content on websites, apps or on sponsored e-Learning platforms
